

ADVANCED DIPLOMA

Level 5 Diploma in Business (QCF) Equivalent to year 2 of a 3 year UK honours degree

Overview

The Level 5 Diploma in Business is the second year of the NCC Education Business Degree Journey. The programme builds on the knowledge gained during the NCC Education Level 4 Diploma in Business by exposing you to greater detail and more advanced topics in a range of areas including economics, marketing, finance and management.

During the teaching of the programme, you will study a balance of academic and vocational subjects in order to provide you with the necessary knowledge and skills to play a significant role in business organisations.

On successful completion of the programme, you will be able to complete the final year of a degree at one of the many universities that recognise NCC Education qualifications, or pursue a career in the business industry.

Entry Requirements

On entry you must have at least ONE of the following:

- NCC Education Level 4 Diploma in Business qualification.
- A local or international qualification which is deemed to be of a similar level to the NCC Education Level 4 Diploma in Business programme. This must be agreed in advance with NCC Education.

If you're a potential student whose first language is not English, you will need to obtain a valid score of 5.5 or above in the International English Language Testing System (IELTS) examination or equivalent. Alternatively, take the free NCC Education English Placement Test, which is administered by our Accredited Partner Centres.

Programme Structure

On successful completion of NCC Education's Level 5 Diploma in Business, you will have acquired a critical understanding of the established principles of business and management and developed new skills relevant to the business industry. You will also gain a breadth of knowledge in business and be able to successfully implement your skills in further study or in a professional role within the business industry.

You must study the following eight core units:

- **Business Economics** - examines how an organisation can achieve its objectives most efficiently through the application of micro- economic theory and the tools of analysis of decision science, such as statistics and quantitative methods. It demonstrates how economic analysis can be used in formulating business policies.
- **Advanced Business Mathematics** - provides an understanding of how a number of statistical and mathematical techniques are applied in economic and business decision-making.
- **Marketing in Business** - highlights the need for managers to view the role of marketing as critical to their organisation. The crucial role of marketing in contributing to the success of organisations is emphasised.
- **Human Resources in Business** - explores the dynamic role of human resource management policies and practices in contemporary organisations and their contribution to the goals of those organisations. It defines and critically examines the major philosophies, policies, procedures and practices related to the management of human resources.
- **Understanding Consumer Behaviour** - provides an understanding of customers' needs and the complexity of the decision making process customers undertake in both consumer and industrial markets.
- **Principles of Business Operations** - explores the operations management function and its basis in creating and sustaining effective and efficient operations which deliver the products or services in a manner which achieves the objectives of the organisation. You will analyse this with respect to cost, quality, flexibility, dependability and speed.
- **Financial Management** - builds on your knowledge of fundamental financial concepts in financial and management accounting by considering the applications of these topics in a business environment and by examining a set of more advanced issues.
- **Information Systems and Organisations** - introduces you to the subject of Information Systems and Technology (IS&T) in organisations, taking a broad management perspective. You will gain an understanding of the current and future role of IS&T in modern organisations, including an appreciation of the social, cultural and political aspects that are important to the successful adoption of technology.

ADVANCED DIPLOMA

Assessment

Assessments for all units are offered in a number of assessment cycles throughout the year. All units are assessed by either examination or coursework assignments.

Award Conditions

The NCC Education Level 5 Diploma in Business will be awarded when you have successfully passed all eight units. A unit is passed when an overall mark of 40% or more is achieved. You can resit units if you need to but this must be done within three years of your first assessment in the programme.

Duration

The programme is designed to be delivered over one academic year for full-time study, but it is also flexible in its delivery in order to accommodate part-time learning.

Delivery Method

You will receive face-to-face teaching by NCC Education's Accredited Partner Centres.

Accreditation Status

NCC Education is accredited to award the Level 5 Diploma in Business (QCF) by Ofqual (Office of the Qualifications and Examinations Regulator) in England. Ofqual qualification reference number 600/2480/X.

Progression

The qualification allows students entry to NCC Education's final year degree in Business (further entry requirements may apply), or to a 3rd year of many UK university programmes of study or to pursue a career in the business industry.

Further Information

For more detailed programme information please contact your Accredited Partner Centre or visit us at, www.nccedu.com.
